Short Bio

Shine On Floyd is a Pink Floyd tribute band from Phoenix Arizona formed by a group of very talented musicians and singers with a love of everything Floyd! They play and sing all the Pink Floyd classics note-for-note and their concerts are a complete Pink Floyd experience with a light and laser show, backup singers, video wall, special effects, audience interaction, costume changes and of course great vocals and music. If you like Pink Floyd then Shine On Floyd won't disappoint.

From the opening number to the final encore you will be immersed in everything Pink Floyd. The band plays all the great Pink Floyd classics including hits from *Animals*, *The Wall*, *Wish You Were Here*, *Momentary Lapse of Reason* and the entire album *The Dark Side of the Moon*.

Don't miss one of the best Pink Floyd tribute bands in the US.

Long Bio

Shine On Floyd puts on a complete Pink Floyd experience playing most iconic classic Pink Floyd songs with an emphasis on songs from *Dark Side of the Moon*, *Wish You Were Here*, *Animals*, and *The Wall*.

The band was formed in January of 2019 by **Scott Fresener** (bass guitar) who has played on and off in the Phoenix area most of his adult life. Scott is the "mature" member of the group having played originally in the 60's and having one of the hot local bands that opened for many national touring acts.

Bryan Laurienti is the bands lead singer and lead guitar and steel guitar player is. He is very detail minded which helps the band play all the subtle things going on in a Floyd song. Bryan is one of the younger members of the group who has a passion for all Pink Floyd songs and he can play lead and sing them all with great precision. He makes it look effortless.

Mike Jackson is the second lead guitar. Mike has played guitar all of his adult life and is a master guitar player and singer. He is originally from Canton Ohio and has played in a number of popular cover bands in that area including bands that played a few Pink Floyd songs. Mike brings his attention to the subtleties in Pink Floyd songs and he “plays a mean guitar.” Mike also brings an audio/sound background and is responsible for automating the sound effects and sound system.

Andrew Smith is the keyboard player. Andrew is very musical and was a music teacher. He has a great grasp of theory and works hard to get all the Richard Wright keyboard parts correct and helps the band with overall musicianship.

Jeff Bowen is the bands drummer. Jeff started playing drums when he was twelve (touring with his dad). He is a well seasoned drummer who gets in the pocket and keeps things nice and tight! Jeff sits back in his little “office/drum kit” and goes unnoticed until you listen to the band and realize it is the drummer driving things.

Romn Paras began playing saxophone at age 10 and has a music degree from Kent State University. He has played everything from classical jazz and funk to rock ‘n roll. Every respectable Pink Floyd tribute band needs a sax player for those iconic solos and Romn has found a home with Shine On Floyd.

A serious tribute band is not complete without backup singers. Pink Floyd songs are like a symphony and each part is critical and backup singers are a very key element to the overall sound. The band is very fortunate to have three outstanding backup singers who also help out with some lead vocals.

Jewell Hill was offered two record deals from Sony Records and has 3 albums to her credit. Jewell brings a wealth of intensity, joy and passion to her vocals. She is very dynamic and versatile - contributing to the heavenly choir backing vocals that grace Pink Floyd's songs and bringing you goosebumps on songs like "Great Gig in the Sky".

Claire Riley was introduced to music at a young age. Originally from Kansas, she has lived in the Phoenix area for the last 15 years. Claire is versed in many styles of music, having performed in rock groups as well as blues bands, and even two Gospel choirs. She's proud to be a part of Shine On Floyd.

Christine Novello has fronted several rock/blues bands from the Southwest to the Northeast. She has a long track record as a session vocalist/musician, and as a backing vocalist Christine has sung in venues from tiny cabaret clubs to stadiums, and has appeared on BBC-TV and the Today Show.

The fact that all of the band reads music and knows theory really helps them duplicate the Pink Floyd sound on stage.

Of course a Pink Floyd show would not be complete without background videos, smoke, lasers, a light show, sound effects and more and of course **Shine On Floyd** has all of that. The band is very self-contained and owns their own large and small moving lights, lasers, large truss system, large video screen, projector, full sound system with sub woofers and more.

Shine On Floyd is a work of love to honor the creativity of Pink Floyd songs and they strive to put on a show where you can close your eyes and think you are hearing Roger Waters, David Gilmour, Richard Wright and Nick Mason on stage.

Learn more about the band and listen to their music and see their videos at www.ShineOnFloyd.com.

The booking contact for the band is Scott Fresener. Email scott@shineonfloyd.com or phone 602-750-7268.
